|                                                                          |     |
|--------------------------------------------------------------------------|-----|
| <b>Presentation.</b> Ubiratán D’Ambrosio .....                           | iii |
| <b>Acknowledgments.</b> Eduardo Luna.....                                | v   |
| <b>Preface.</b> Ángel Ruiz .....                                         | vii |
| <b>Chapter 1: <i>The Sociohistoric and Ideological Context</i></b> ..... | 1   |
| Notes .....                                                              | 6   |
| <b>Chapter 2: <i>The Beginnings: The First Two Conferences</i></b> ..... | 11  |
| <i>The First Conference</i> .....                                        | 11  |
| The Ideas.....                                                           | 12  |
| The Recommendations .....                                                | 16  |
| <i>The First Committee</i> .....                                         | 18  |
| <i>The Second Conference</i> .....                                       | 19  |
| The Main Topics.....                                                     | 19  |
| National Reports .....                                                   | 24  |
| The Conclusions of the <i>Conference</i> .....                           | 25  |
| Marshall Stone .....                                                     | 28  |
| Data from the <i>First Conference</i> .....                              | 29  |
| Data from the <i>Second Conference</i> .....                             | 32  |
| Notes .....                                                              | 35  |
| <b>Chapter 3: <i>The Rest of the Conferences</i></b> .....               | 37  |
| <i>The Third Conference</i> .....                                        | 39  |
| Delegate Reports.....                                                    | 42  |
| Recommendations .....                                                    | 43  |
| <i>The Fourth Conference</i> .....                                       | 44  |
| Delegate Reports.....                                                    | 46  |
| Recommendations .....                                                    | 46  |
| <i>The Fifth Conference</i> .....                                        | 47  |
| <i>The Sixth Conference</i> .....                                        | 49  |
| <i>The Seventh Conference</i> .....                                      | 51  |
| <i>The Eighth Conference</i> .....                                       | 53  |
| <i>The Ninth Conference</i> .....                                        | 56  |
| Notes .....                                                              | 57  |
| <b>Chapter 4: <i>Topics and Protagonists</i></b> .....                   | 58  |

|                                                                                           |    |
|-------------------------------------------------------------------------------------------|----|
| Some of the Topics.....                                                                   | 58 |
| Computers and Calculators.....                                                            | 58 |
| The Teaching of Geometry.....                                                             | 59 |
| Problem Solving.....                                                                      | 59 |
| Preparation and Professional Development of Teachers.....                                 | 59 |
| Keynote Speakers and Panelists.....                                                       | 60 |
| <i>Executive Committees of IACME</i> .....                                                | 65 |
| Participants in the <i>Conferences</i> .....                                              | 69 |
| <i>Iberoamerican Congresses on Mathematics Education</i> .....                            | 74 |
| The Organizers and Sponsors of the <i>Conferences</i> .....                               | 75 |
| <b>Chapter 5: <i>Perspectives</i></b> .....                                               | 78 |
| Notes.....                                                                                | 83 |
| <b>“Annex-A”</b> Graduate Programs in Mathematics Education in Latin America.....         | 85 |
| <b>“Annex-B”</b> Professional Associations of Mathematics Educators in Latin America..... | 90 |
