La universidad de los Andes tiene el gusto de invitarlos a participar en la Escuela Luz y MATERIA del 16 al 19 de agosto de 2016

Light and Matter School

UNIVERSIDAD DE LOS ANDES

Bogotá, Colombia

August 16-19, 2016

Light and matter are fundamental concepts in physics and their interaction constitutes the core for various basic and applied topics in science. The aim of this school is to offer to Colombian students and researchers the opportunity to interact with worldwide recognized researchers in hot topics on light and matter. In this first edition, the invited speakers are working on three different areas: quantum optics, nanoplasmonics and atom-light interactions.

We invite the participants to present posters to share their current work on topics related to light and matter. The deadline for this submission is August 2, 2016. Please attach a 400 words abstract with figures as a PDF file in the registration form below.

Free admission. Previous registration is compulsory
